

FAEGRE BAKER DANIELS

2013 Legislative Update #4

Indiana Society of Anesthesiologists

February 3, 2013

Statehouse activity picked up last week, as the General Assembly closed out the first month of its 2013 long session. Committees must finish hearing bills in their house of origin by the end of the third week of February, which means most committees will meet three more times. The House Ways & Means Committee, however, will meet several times each week, as it continues to hear state agencies' budget requests, as well as bills with a fiscal impact that have been approved by other committees.

On Wednesday (Feb. 6), Sen. Miller has scheduled a hearing on **SB 273** (anesthesiologist assistants). This is sooner than we had hoped, so we are scrambling to meet with all the committee members in advance of the hearing on Wednesday to make sure that they understand the training, education, and scope of practice of AAs. I have attached an updated summary of SB 273 that reflects the motion approved last week by the ISA Board.

Sen. Miller has also scheduled **SB 268** (CRNAs) at the same time. Because the schedule was released after the close of business on Friday, I have not yet had the opportunity to find out what she is planning to do with the bill. As introduced, SB 268 is rife with problems. As you may recall, SB 268 allows CRNAs to administer anesthesia under the direction of and in the immediate presence of a dentist or podiatrist who holds an anesthesia permit. There are two problems with this language. First, there is no such thing as an anesthesia permit for podiatrists. Their scope of practice is limited to local anesthetics. Second, even though dentists may obtain anesthesia permits, the Indiana Dental Association does not support SB 268. The Dental Board is in the process of overhauling the dental anesthesia rule, and the IDA believes it would be premature to allow CRNAs to administer anesthesia under a dentist's direction before the necessary changes are made to the rules that govern the administration of anesthesia by dentists.

SB 268 also amends the advanced practice nurse statute to include CRNAs. Under the bill introduced, CRNAs would have prescriptive authority and would be required to enter into collaborative agreements. This is contrary to what IANA asked Sen. Miller to introduce, which was to be granted the title of advanced practice nurse but to be carved out from the statute's provisions that authorize prescriptive authority.

I will have more information tomorrow about the upcoming hearings and any proposed amendments on both bills, and will send an update to the ISA Board.

During the past week, several bills on the tracking list passed out of committee or received floor action. Highlights include:

- **HB 1182** passed unanimously as amended out of the House Public Health Committee. The bill would establish a process for the execution of a physician order for scope of treatment (POST) form by an individual (or the individual's representative) and the individual's treating physician to indicate treatment the individual would like to have or have withheld under specified circumstances.
- **SB 559** (Medicaid fraud) was amended and approved by the Senate Health & Provider Services Committee. As introduced, the bill's provisions were limited to Medicaid recipients. Language was added in committee that also cracks down on providers. Under the bill as amended, the Office of Medicaid Policy and Planning would be required to visit the office of provider whose claims increased by 50% or more over a six month period and would also be required to visit the office of a managed care provider that seeks to enter into a provider contract. As used in SB 559, the term "managed care provider" means a physician who is primarily engaged in general practice, family practice, internal medicine, pediatric medicine, or obstetrics and gynecology, or an entity that employs or contracts with such physicians. In addition, all persons holding a 5% or greater interest in an entity that holds a Medicaid provider contract would be required to undergo a national criminal history background check, and new transportation providers would be required to post surety bonds. Because of its potential fiscal impact, the bill now moves to Senate Tax & Fiscal Policy Committee for further review.
- **SB 265** (health provider peer review committee) passed the Senate unanimously. The bill broadens the definition of "professional health care provider" for purposes of the law concerning privileged communications of peer review committees to include certain subsidiaries and affiliates of health care organizations. Rep. David Frizzell is sponsoring the bill in the House.
- **SB 471** (prescriptions for brand name drugs) was unanimously approved by the Senate and moves to the House where it will be sponsored by Rep. Steve Davisson. This bill permits a health care practitioner to use words of similar meaning instead of the statutory phrase "Brand Medically Necessary" when writing a prescription for a brand name drug when the practitioner does not want the pharmacist to substitute, under the CHIP or Medicaid program, a generically equivalent drug product for the brand name drug.

Looking ahead, the House Public Health Committee will hear the following bills on Monday:

HB 1105 *Anatomic pathology services.* (Frizzell)

HB 1464 *Immunizations by pharmacists and pharmacy students.* (Davisson)

HB 1518 *State board of nursing.* (M. Smith)

HB 1272 *Dietitian licensure.* (Bacon)

I

On Wednesday, the Senate Health & Provider Services Committee will hear the following bills:

SB 268 *Certified registered nurse anesthetists.* (Pat Miller)

SB 272 *Opioid treatment program and controlled substances.* (Pat Miller)

SB 273 *Anesthesiologist assistant licensure.* (Pat Miller)

SB 414 *Insurance coverage for breast ultrasound exams.* (Pat Miller)

SB 554 *Telehealth services under Medicaid.* (Becker)

Following is a tracking list with summaries of bills of interest to ISA. Bills that have received legislative action or that are scheduled for a committee hearing are highlighted in blue.

As always, please let me know if you have any questions or need additional information.

Physician assistants. (Davisson, Pat Miller, Skinner, Grooms)

Amends the definition of "supervision" for purposes of the physician assistant law concerning where the supervising physician or physician designee is located. Allows a physician assistant that meets certain practice requirements to prescribe schedule II controlled substances. Allows a supervising physician to delegate a physician assistant to prescribe a controlled substance for an aggregate 30 day supply. (Current law limits the prescription to a one time 30 day supply.) Changes the percentages of patient charts that a supervising physician or physician designee must review based on the number of years the physician assistant has been employed. Provides that if a physician uses a protocol, the protocol may apply only to an individual or group of individuals who are: (1) at least 12 years of age but less than 18 years of age, if the individual's parent or guardian is present and consents to the immunization; or (2) at least 18 years of age. (Current law provides that an individual given an</p>						

immunization by a pharmacist under a protocol must be at least 14 years of age.) Requires a pharmacist or pharmacist's designee to provide immunization data to the immunization data registry unless the patient or the patient's parent or guardian completes an immunization data exemption form. Allows a pharmacist intern or a pharmacist student to administer an immunization to an individual under a drug order or prescription or to administer an immunization for influenza or shingles to a group of individuals under a drug order or prescription or according to a protocol, subject to rules adopted by the Indiana board of pharmacy. Provides that the rules: (1) must provide for supervision by a pharmacist, a physician, or an advanced practice nurse; and (2) may not be less stringent than the requirements applying to a pharmacist who administers an immunization to an individual.
