

2020 Indiana Society of Anesthesiologists

Accreditation/Disclosures

Learning Objectives

At the end of this course, learners will be able to:

- Cite the most important patient safety issues for patients undergoing anesthesia and surgery.
- Review current practices that lead to patient harm in the perioperative period.
- Develop care protocols that extend through the perioperative period.
- Analyze anatomic issues associated with positioning problems.
- Describe the likely etiologies of various positioning problems.
- Develop plans that minimize the risk of intraoperative patient positioning.

Target Audience

This activity is intended for anesthesiologists, anesthesiology residents, and members of the anesthesia care team.

Presenters

Seung Sim, MD FASA

Mark Warner, MD

Mary Dale Peterson, MD FASA

Elizabeth Cierzniak, JD

Disclosures

All planners, speakers, and staff have disclosed no relevant financial relationships with commercial interests.

Accreditation and Designation Statements

The American Society of Anesthesiologists designates this live activity for a maximum of 3.75 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Maintenance of Certification in Anesthesiology[™] program and MOCA[®] are registered trademarks of The American Board of Anesthesiology[®]. MOCA 2.0[®] is a trademark of the American Board of Anesthesiology[®].

This activity contributes to the CME component of the American Board of Anesthesiology's redesigned Maintenance of Certification in Anesthesiology™ (MOCA®) program, known as MOCA 2.0®. Please consult the ABA website, www.theABA.org, for a list of all MOCA 2.0 requirements.

Disclosure Statement

The American Society of Anesthesiologists remains strongly committed to providing the best available evidence-based clinical information to participants of this educational activity and requires an open disclosure of any potential conflict of interest identified by our faculty members. It is not the intent of the American Society of Anesthesiologists to eliminate all situations of potential conflict of interest, but rather to enable those who are working with the American Society of Anesthesiologists to recognize situations that may be subject to question by others. All disclosed conflicts of interest are reviewed by the educational activity course director/chair to ensure that such situations are properly evaluated and, if necessary, resolved. The American Society of Anesthesiologists educational standards pertaining to conflict of interest are intended to maintain the professional autonomy of the clinical experts inherent in promoting a balanced presentation of science. Through our review process, all American Society of Anesthesiologists education activities are ensured of independent, objective, scientifically balanced presentations of information. Disclosure of any or no relationships will be made available for all educational activities.

Disclaimer

The information provided at this activity is for continuing education purposes only and is not meant to substitute for the independent medical judgment of a healthcare provider relative to diagnostic and treatment options of a specific patient's medical condition.
